# Bargains!

What is a Bargain?

Not truth, certainly; and stuff which one has no use for is dear at any price.

To be a bargain, the goods offered as such should be something you want, and should be very low in price, for the quality offered.

We claim for the Bargains we are now offering.

And, right here, we want to say that we are not selling any goods or dresses at prices which seem low, in order to catch your eye.

We rely upon the merits of the goods we offer, the real value of which is readily seen, and prove for ourselves that they are just what we claim for them, very cheap and real, genuine bargains.

We offer some special Bargains which must be seen to be appreciated.

For instance, our **DOUBLE LACE DRESS GOODS** at 1/2, and they are going fast. They make up at such a fine price. Also our **Chick Muslin** at 40c. They are cheap.

Our line of **Draw Prints** at 50c, and **Dress Gingham** at 40c, beautiful styles, and very low.

To try them on, is to wear them always. **Women's Shoes** at \$1.00, in **Clarks** and **Kid** are good quality for the price.

Men's **Plow Shoes** and **Summer Stock** of New and Nobby Tailor-made and **Perfect-Fitting CLOTHING**, the newest and most stylish in Hickman, and at prices \$2.00 to \$10.00 cheaper than can be found at any other place.

Come look at them and you will buy, and save money. We have the **exclusive sale** of these goods—other places keep them.

—Some little chance for our bottom farmers to escape an overflow. All the upper rivers are running, and the water is high. The thing favorable, however, and that is that on yesterday, clear, cold, crisp weather prevailed all along the principal water courses, and if fair weather continues for several days the present high waters may pass down without producing any considerable or prolonged overflow, but, if rain falls in again, followed by continued warm weather, the extent of the overflow must be very destructive and prolonged. Farmers would do well to stock up, and make the most of it, for an overflow, great or less, is certainly imminent.

**SMITH & ELLISON.**
